IVAN CORREA

FRONTEND DEVELOPER

Currently working as Frontend developer in Eiche Chile. I have had the opportunity to work on various projects, ranging from small mobile apps to large-scale e-commerce platforms. I have developed a strong understanding of the latest front-end technologies, including React, NodeJs, MongoDB, React Native, and others.

I am a quick learner and I am always eager to expand my skill set by experimenting with new technologies and techniques. I am excited about the opportunity to bring my skills and experience to a new challenge.
